### Teacher’s Message

Please tell your teacher if you are having any difficulty with your homework before the due date – especially the new literature circle roles!

---

### Reading

- **Read a book for at least 20 minutes a night.**

- **Read your chapters for literature circles** and complete your activity. Remember, you need to bring this in next Tuesday with homework. Some of you have been assigned completely new roles – remember to ask Mr Hart as soon as possible if you need help with these!

- For literature circles, you have also been asked to complete a reflection sheet each week to express how your task will give your group a deeper understanding of the text.

### Working Mathematically

- **Practice your use of the order of operations** by playing the game on [http://gregtangmath.com/play.php?game=expresso](http://gregtangmath.com/play.php?game=expresso) – set your own appropriate level of difficulty!

- **Also, either:**
  - Complete the worksheet to find the missing angles.
  - **OR**
  - Complete the two extension worksheets to find the missing angles.

---

### Name: ____________________________  |  Role: ____________________________  |  Text: ____________________________

### Description of the task:

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

How has this task helped me to understand the text at a deeper level?

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

How will the task effectively communicate my deeper understandings to my group?

________________________________________________________________________
